

Heavy Duty LED Work Lights

LIGHTWEIGHT • VIRTUALLY INDESTRUCTIBLE

Our incredibly popular line of heavy-duty work lights now has two new LED models. The **LE1725LED** and **LE1625LED** work lights are quickly becoming the favourite choice for customers across the country. The polycarbonate lens and rubber handle make these models virtually indestructible. With features such as having no bulbs to replace, a lightweight rugged design, dual steel rotatable hanging hooks and the latest in LED technology, the **LE1725LED** and **LE1625LED** are very high-value work lights.

The **LE1725LED** has the same **usable light output as a 13W fluorescent** work light but with superior LED technology to operate as a worklight and as a flashlight due to the extra LED in the top end.

The **LE1625LED** is the value priced choice. It has the same durability as our other heavy duty LED work lights but at a lower price point with less light output.

	LE1725LED	LE1625LED
BULB	2 x 4W high output white LEDs. Extra LED in top end for flashlight function	1 x 4W high output white LED
