

Beacon 980 Hitch light

PART OF THE BEACON FAMILY

The Beacon 980 Hitch Light is a game-changer for job site lighting. With its innovative design, you can light up your work site easily without dragging heavy equipment around. The Hitch Light is lightweight and easily portable, making it perfect for those on-the-go projects. The mast with two light heads provides an output of 60,000 lumens, ensuring your work area is well-lit. The best part? It is easily attached to the hitch of your truck, making it a plug-and-play solution. Simply plug it into the 120v outlet found in most new trucks, and you're ready to go! Say goodbye to heavy, bulky lighting setups and hello to the convenience of the Beacon 980 Hitch Light.

The LED lights last over 50,000 hours with no bulb replacement required, resulting in a lower total cost of ownership and reduced downtime on job sites

KEY BENEFITS

- Easy to hitch and use.
- Lower total cost of ownership.
- Reduced downtime on job sites.
- Comes a part in three pieces for easy storage
- The mast is adjustable to not interfere with the truck's tailgate

KEY FEATURES

- Lightweight and easily portable.
- LEDs will last over 50,000 hours.
- No bulb replacement required.
- Instant start-up, at full output, even in cold temperatures.
- Winch assisted 12' mast

INDUSTRIES/APPLICATION

- Construction
- Concrete/Paving
- Excavation & Military
